

Terms of Reference for Entrepreneur in Residence

As a modern enterprising and dynamic business school we offer a blend of academic excellence, entrepreneurial thinking and real-world orientation. We facilitate this by ensuring our students experience real-world, practice-based opportunities throughout the duration of their chosen course.

We aim to develop confident, enterprising and proactive graduates who are: civic in thinking, enterprising in attitude, collaborative in action, global in outlook. We value your commitment and engagement to help us achieve our vision.

As an Entrepreneur in Residence you will help students and staff to develop 'real world' practice in the curriculum and support students to identify new business opportunities. You will commit to:

- Developing a relationship and maintaining regular contact with a nominated academic professional to exchange knowledge and help inform the curriculum
- Deliver a minimum of 2 inspirational guest lectures each academic year in a relevant subject area
- Participate as an external consultant (when required) at course approvals and reviews (no more than once per annum)
- Support academic research, innovation and enterprise groups and advise on commercialisation of research
- Participate in 'round table' panels and topical breakfast events

Requirements

- Experience of significant leadership in the functional areas of your business
- Experience of partnership working within multi stakeholder groups
- Understanding of Higher Education and previous collaboration with students is desirable
- Access to extended networks to broaden the reach of Teesside University International Business School

In return Teesside University International Business School will:

- Keep you informed of the latest opportunities to access student and graduate employability opportunities including internship/placements, student projects and graduate recruitment
- Provide you with opportunities to engage with our technical solutions for business including consultancy and commercial research
- Provide you with the latest opportunities to access our talent development and management solutions including corporate executive education

- Provide you with information to access, support and leverage the latest funding opportunities to support business growth
- Provide you with opportunities to engage with research projects in the School
- Invite you to appropriate University events
