Exporting from Dawsonera into RefWorks

At the title you are interested in click on Read online:

Then click on the Cite button (this may be under an Action button on a smaller screen):
Then select RefWorks:

(You may have to accept pop-up blockers to export the details)

Choose the version of RefWorks (Legacy or New) that you want to export your references to.

Continue exporting to RefWorks?

Yes, export to the newest version of RefWorks

No, export to the legacy version of RefWorks

Your references then should be imported into your RefWorks account.

Click on View Last Imported Folder to see them.

Note: Some editing of the reference may be necessary.

If a pop-up blocker message appears, accept from Dawsonera and repeat the process.
