

Transparency 2022 information: workbook overview

This workbook contains data tables relating to the attainment of 2020-21 qualifiers. The following worksheets are included in this workbook:

Table 1a Attainment 2020-21 - This worksheet contains table 1a which relates to attainment at the provider. This table presents the percentage of classified first degrees at grade 2:1 or above by characteristics for 2020-21 qualifiers.

Table 1b Attainment 2020-21 - This worksheet contains table 1b which relates to attainment at the provider. This table presents detailed information on attainment by characteristics for 2020-21 qualifiers.

Rounding and suppression - Details of the rounding and suppression rules applied to tables.

Transparency 2021 information: Rounding and suppression

The data contained in the tables in this workbook have been rounded and suppressed as follows:

Numerators and denominators have been rounded to the nearest 10. Where the numerator or denominator rounds to 20 or less, the data are suppressed with an "N".

Percentages are rounded according to the smallest, unsuppressed denominator in a given mode and characteristic. If the denominator rounds to:

- 50 or less: percentages are rounded to 5%
- 1000 or less: percentages are rounded to 1%
- More than 1000: percentages are rounded to 0.1%

"N/A" is displayed where there is no provision in a given mode or level

"DP" indicates suppression for data protection reasons. This is applied where the numerator is two or less, or differs from the denominator by no more than two students.
