# WELCOME

## WE'RE DELIGHTED TO SHARE WITH YOU OUR CURRICULUM AND ENRICHMENT SUPPORT GUIDE FOR 2024-25.

We hope our activity meets the needs of you and your students, but if something doesn't quite fit, we can work with you to develop bespoke activity that does meet your requirements.

This year we were delighted to receive an 'Overall' gold in the Teaching Excellence Framework 2023, the only university in the North East to achieve this. We received praise for outstanding quality teaching, assessment and feedback, and our extensive range of experiential learning opportunities. And the recognition doesn't stop there. We were ranked 1<sup>st</sup> out of 64 institutions for graphic design in the *Guardian University Guide 2024*. We were ranked 1<sup>st</sup> for Graduate Prospects – Outcomes for nursing in the *Complete University Guide 2024*, in what are currently very challenging times in the profession, and our student-led chiropractic clinic was awarded the Clinical Management Quality Mark (CMQM), recognising excellence in terms of operating within a structured and managed clinical environment.

Our investment in the campus continues and we very much look forward to the opening of Digital life next Spring. This is going to be a fantastic addition for students studying in the School of Computing, Engineering & Digital Technologies, with facilities including cutting-edge games and stop-motion studios, a simulation cybersecurity incident control room, digital sound studio with LED volume, motion capture mosys system, holographic projection and so much more.

We very much look forward to working with you during this next academic year and wish you a successful 2024-25.

Best wishes

Careers Adviser, Stockton Riverside College

# OPEN DAYS

Open days provide students with a taste of life at university as they tour the campus, view accommodation, attend subject talks and meet current students and academic staff. Talk to us about travel contributions for bringing groups of students to our Wednesday open day.

✉ [studentrecruitment@tees.ac.uk](mailto:studentrecruitment@tees.ac.uk)

- > Saturday 7 September 2024
- > Wednesday 16 October 2024
- > Saturday 23 November 2024
- > Saturday 18 January 2025
- > Saturday 21 June 2025

# SUPPORTING PROGRESSION CONFERENCE

**WEDNESDAY 2 APRIL 2025**

We bring together a range of experts to provide you with the most up-to-date information and guidance for approaching today's current issues in further and higher education.

Last year we welcomed keynote speakers from UCAS and IDP Connect. Hannah Simnett from Connection Counts delivered a fantastic session on forming connections with your students and Jonny Richardson from GECKO took us on a fascinating journey to understand the impact of AI and ChatGPT in education.

We will once again be looking to invite speakers and offer sessions that support you in your role.

REGISTER YOUR INTEREST

*'I met some lovely careers professionals and got to take a look at Teesside University. It was a really lovely day and topics that were covered were relevant to my role.'*

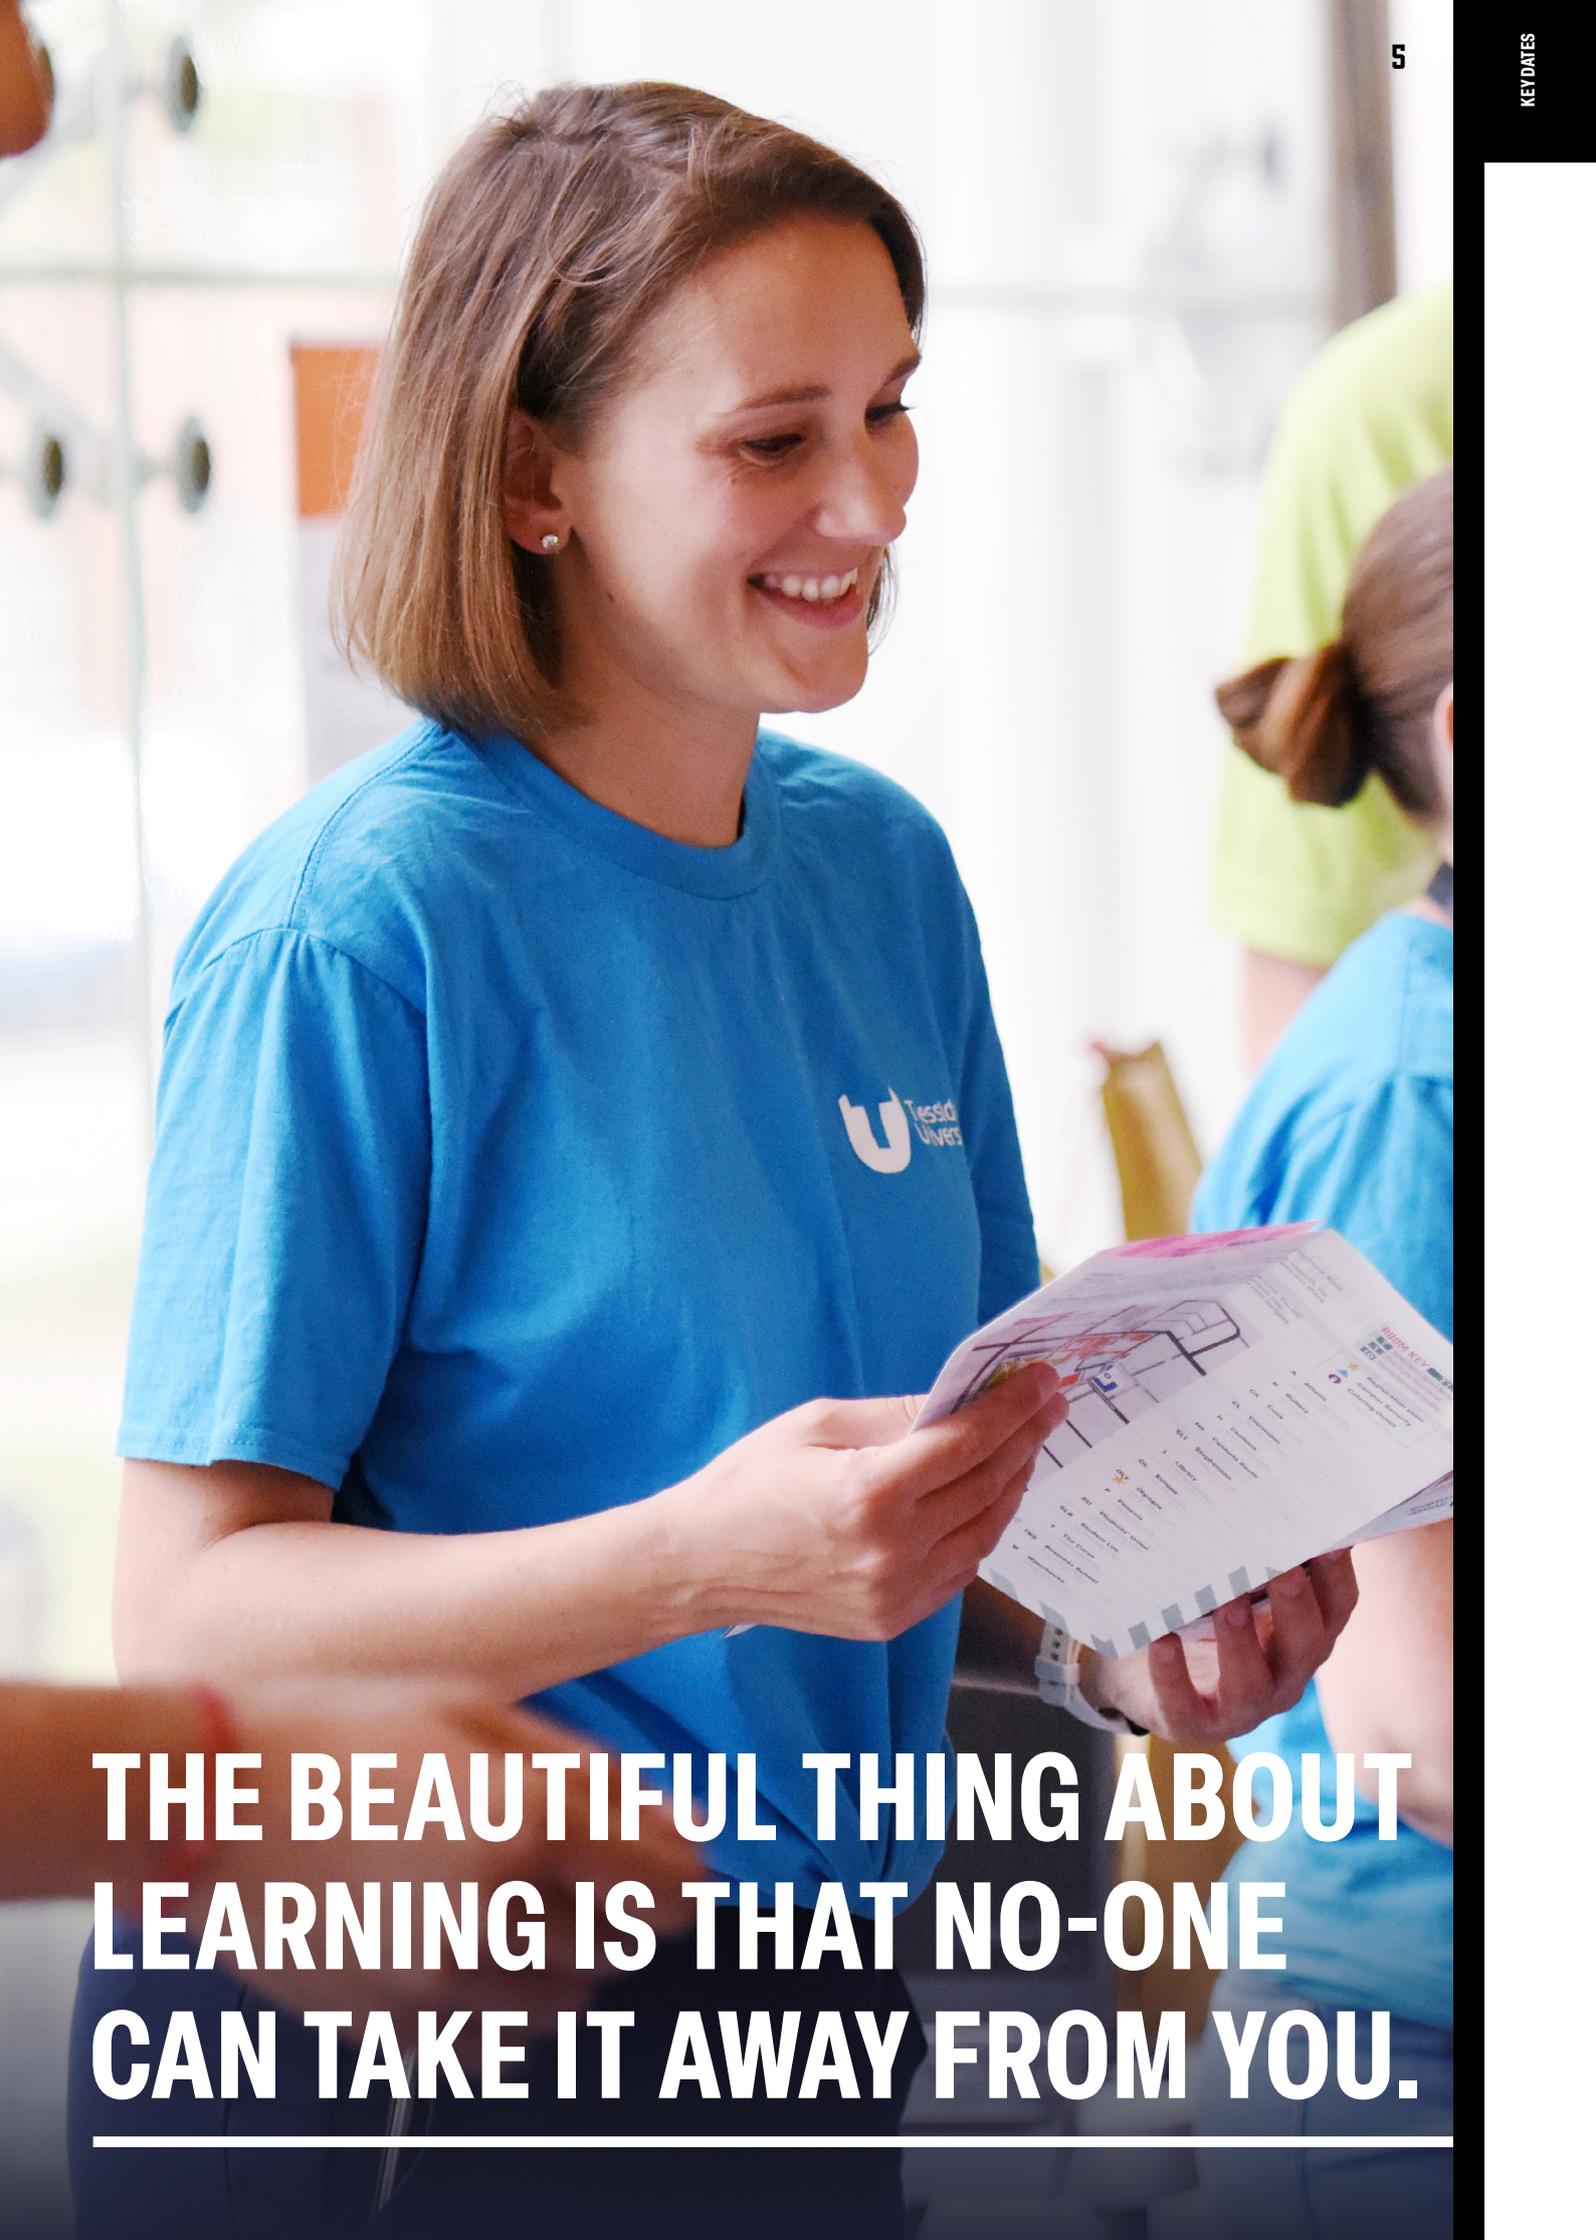

# UCAS/DISCOVERY MIDDLESBROUGH 2025

**APRIL/MAY 2025**

Students can speak to a range of universities and employers from across the UK. We can arrange subject talks and campus or facility tours for your students as part of this event.

✉ [studentrecruitment@tees.ac.uk](mailto:studentrecruitment@tees.ac.uk)

A woman with shoulder-length brown hair, wearing a blue t-shirt with the University of Trier logo, is smiling and looking down at a campus map she is holding. The map shows various buildings and a legend. In the background, another person in a blue t-shirt is partially visible, and a person in a yellow shirt is seen from behind. The setting appears to be an indoor space with large windows.

**THE BEAUTIFUL THING ABOUT  
LEARNING IS THAT NO-ONE  
CAN TAKE IT AWAY FROM YOU.**

# TRANSITION WORKSHOPS

## Transition Workshops

### OUR FLEXIBLE POST-16 TRANSITION WORKSHOPS GIVE YOUR STUDENTS THE INFORMATION THEY NEED TO MAKE AN INFORMED DECISION ABOUT THEIR OPTIONS AFTER FURTHER EDUCATION.

 Approx. 30 mins - 1 hour

 A date and time to suit you

 Face-to-face or online

#### Applying through UCAS

Students explore the application process including when and how to apply, choices, deadlines, responding to offers, Extra and Clearing.

#### Apprenticeships

Students are introduced to apprenticeships; what they are, how they work and how to apply.

#### Choosing a course and university

Looking at the range of higher education institutions and courses available, students are challenged to think about the most important factors when choosing a subject and university.

#### Interview skills

Outlining practical steps to prepare for university or job interviews, we demonstrate how to give evidence of skills and experience. This session can be tailored to students interested in health and social care courses.

#### Introduction to higher education

What do students need to consider when thinking about going to university? Students explore:

- > how to research universities and courses
- > the application process
- > the benefits and value of higher education.

#### Introduction to Teesside University

Students discover what it's like to study at Teesside University. We take a look at courses, accommodation, facilities, student support, Students' Union and living in the region.

#### Personal branding

Students consider the successes of famous brands and their strengths and qualities, exploring their online presence and how this can be used to pitch themselves to universities and potential employers.

#### Presentation skills

We offer advice and guidance on all aspects of delivering presentations as well outlining the importance of non-verbal communication and body language when delivering a message.

#### Revision skills

Students consider what type of learner they are and how this affects the way they revise. They are introduced to some simple techniques for managing their time and how to develop a balanced approach to study and social life. We also provide hints and tips for relaxation and handling stress.

#### Student finance and funding

We detail the funding available to support with tuition fees and living costs, and how students pay this back on completion of their studies.

#### Student life

Students hear first-hand from one of our student ambassadors about what it's like to study at Teesside University. This is an informal opportunity for students to ask questions about higher education and think about what student life is really like.

#### Successful personal statement writing

We encourage students to consider their career aims, subject strengths and personal skills, and equip them with the tools to write an outstanding personal statement.

#### Why take a placement year?

We discuss the benefits of completing a placement and the skills, knowledge and experience students gain from these opportunities.

#### Come to us

Hold your progression day at Teesside University. We'll provide transitional activities and add an interactive workshop, subject-focused activity, formal presentation or facility tour.

#### Or we'll come to you

Invite us to your progression days and careers fairs. Our team of staff and student ambassadors can offer information, advice and guidance on everything from entry requirements and personal statements to accommodation and moving away from home.

**BOOK YOUR TRANSITION  
WORKSHOPS**

# ANIMATION GAMES & VFX

## SUBJECT EVENTS

### Animex

📅 11 - 15 November 2024

Animex is our annual International Festival of Animation, VFX and Games and is an amazing opportunity for your students to get an insight into the industry. Last year we welcomed speakers from Disney Studios, Double Eleven, ILM and Ubisoft, plus loads more.

Bring a group of students and get a 20% discount and free teacher passes. As part of your visit we can offer campus and facility tours, and subject specific workshops.

### Game Jam

📅 Wednesdays, 9.30am - 3.30pm  
 > 20 November 2024  
 > 4 December 2024  
 > 5 March 2025  
 > 2 April 2025  
 > 18 June 2025

Students experience what it's like to work in the industry and get the opportunity to design and prototype a level for a pre-made game template. They brainstorm game ideas and use primitive shapes and prototyping tools to block out playable spaces. They develop, check and remove bugs, and polish their game ready to present and demonstrate it to the group.

Awards for best gameplay, most creative and best presentation. **Students must have experience of using a modern game engine.**

### Back to the drawing board – planning a career in illustrative and digital arts

📅 Wednesday 27 November 2024  
 1.00pm - 3.30pm

Illustrators have a diverse set of skills that can be used across a range of industries including advertising, animation, fashion, publishing and more. Students learn about the specialties available and enhance their technical skills and artistic knowledge through practical sessions in:

- > comics and graphic novels
- > concept art
- > games art
- > graphic design
- > illustration.

**'The careers in creative and digital arts event was so interactive and the content was well explained. The 3D/VFX session was very cool.'**

### Pencils and pixels - careers in creative and digital arts

📅 Wednesday 5 February 2025  
 9.30am - 3.00pm

Do your students want to understand the difference between creating game worlds or adding movement to objects in that world? Or how concept artists design the props and environments for a story while an illustrator brings the story to life?

Through immersive experiences, students are introduced to our range of creative courses, get advice from those working in the industry and understand how to build their portfolio.

BOOK YOUR SUBJECT EVENTS

## DISCOVER EVENTS

🕒 Approx. 2 1/2 hours

📅 A date and time to suit you

📍 Teesside University

Our discover events give students an insight into how a subject is taught at higher education. Using industry-standard facilities such as our VFX studios, motion-capture suite and animation labs we can provide targeted curriculum support in a range of areas.

#### > Discover concept art

Students design characters, creatures and environments for film, games and animation. They are challenged to question what they see and how it's perceived. Practical activities include drawing techniques to help capture ideas on paper to create something like never seen before.

#### > Discover stop motion animation

Stop motion animators are behind the magic of *Wallace & Gromit* and the amazing Oscar winning *Pinocchio*. Students have the opportunity to bring puppets and objects to life in our state-of-the-art stop motion studio.

#### > Discover VFX and motion graphics

Animation, visual effects and motion graphics fill our screens in film, TV and commercials much more than we often realise. In this workshop students are introduced to some of the tools and techniques that lie behind this visual wizardry.

Alternatively, if you would like to bring a group of students for targeted curriculum support at a date and time to suit you, scan the bespoke QR code below.

CREATING THE  
ILLUSION OF LIFE.**

---

# ART & DESIGN

## SUBJECT EVENTS

### Sustainability and fashion – strike a pose

 **Wednesday 6 November 2024**  
9.30am - 3.00pm

Students take part in a photo shoot, assist with the styling of outfits and experience a live set. They use the photoshoot to create content and Canva to turn the photos into promo videos, blogs or Instagram posts and write actionable content and experiment with digital tools.

### Back to the drawing board – planning a career in illustrative and digital arts

 **Wednesday 27 November 2024**  
1.00pm - 3.30pm

Illustrators have a diverse set of skills that can be used across a range of industries including advertising, animation, fashion, publishing and more. Students learn about the specialties available and enhance their technical skills and artistic knowledge through practical sessions in:

- > comics and graphic novels
- > concept art
- > games art
- > graphic design
- > illustration.

### Interior design challenge

 **Wednesday 4 December 2024**  
9.30am - 3.00pm

Students work in teams to respond to a brief to design a quirky interior design space. They get to work in our dedicated design studios using industry-standard facilities. Experimenting with visualisation, students understand working within define spaces and how to make use of materials from our unique samples library.

We can help with the cost of individual students travelling to campus. Email: [sacirecruitment@tees.ac.uk](mailto:sacirecruitment@tees.ac.uk) to find out more.

### Pencils and pixels - careers in creative and digital arts

 **Wednesday 5 February 2025**  
9.30am - 3.00pm

Do your students want to understand the difference between creating game worlds or adding movement to objects in that world? Or how concept artists design the props and environments for a story while an illustrator brings the story to life? ## DISCOVER EVENTS

 Approx. 2 1/2 hours

 A date and time to suit you

 Teesside University

Our discover events give students an insight into how a subject is taught at higher education. Using industry-standard facilities we can provide targeted curriculum support in a range of areas.

### > Discover comic creation

Students are introduced to cartooning and the process behind the comics they love. They utilise sequential storytelling and simple sketches to create a blueprint for what will be their one-page comic.

### > Discover fashion for the metaverse

Digital technology is ripping up the rulebook in fashion, from design, to sales, to communications. Virtual clothing, digital characters, robot influencers and models offer a playful and creative space to express our identities and individuality.

### > Discover portrait lighting

Students learn basic lighting styles for portraits, how to convey a mood and how to flatter their model. They may wish to bring their SD memory card to shoot and keep their pictures.

### > Discover still life

This studio session focuses on using different materials including clay, drawing, print and video to capture the essence of a subject or disfiguring it entirely.

### > Discover typography

Students are encouraged to push the boundaries of traditional typography by transforming ordinary objects into compelling letter forms.

### > Discover urban shelter

Students design, build and construct their own outdoor shelter in our workshop – encountering a range of challenges from budget restrictions to sustainability and access.

**Alternatively, if you would like to bring a group of students for targeted curriculum support at a date and time to suit you, scan the bespoke QR code below.**

## THE MIMA GREAT CREATE

SHOUT OUT TO ALL YOUR BUDDING CREATIVES!

This year our Great Create competition is continuing with the theme 'Creating a sustainable future' as we feel there's still so much to say and create about the ever-present issue of climate change.

Your students are invited to submit an artistic piece of work that responds to the theme. Submissions can include music, artwork, a comic, photograph or video.

It's a great opportunity for your students to experience working to a live brief, have their work judged by industry professionals and showcase their creative talent in a national competition.

MAKE OTHERS SEE.**

# BUSINESSES & TOURISM

## SUBJECT EVENTS

### Business conference

 **Wednesday 23 October 2024**  
9.30am - 3.00pm

A degree in business opens up many opportunities. Working alongside employers from industry, students explore careers in marketing, leadership and business. They discover the exciting world of entrepreneurship and put their knowledge to the test through practical sessions in the afternoon.

### Being a digital marketer

 **Wednesday 20 November 2024**  
9.30am - 3.00pm

Students work alongside staff from our very own digital marketing agency, SMRS based in Manchester, to understand how they create and deliver impactful marketing strategies for their clients. From SEO to creative development and marketing automation, your students get a real insight into what it takes to become a digital marketing expert.

### Accountancy and finance conference

 **Wednesday 27 November 2024**  
9.30am - 3.00pm

We examine the future of accountancy including sustainability, emerging technologies, fintech and blockchain. Students also have the opportunity to network with employers and explore career options.

### Aviation conference

 **Tuesday 28 and Wednesday 29 January 2025,**  
9.30am - 3.00pm  
(attendance can be one or both dates)

Last year we welcomed a fantastic line-up of industry speakers from the Civil Aviation Authority, British Airways, Ryanair, Airports Council International, Teesside Airport and others. We hope to have another impressive line-up this year and invite your students to join us to get an insight into the aviation sector and meet potential future employers.

**BOOK YOUR SUBJECT EVENTS**

### Enterprise challenge

 **Wednesday 5 March 2025**  
9.30am - 3.00pm

Do your students have a passion for enterprise and a head for business?

We invite you to nominate a team/s of up to five students to take part in our enterprise challenge.

Students take part in practical workshops to find out more about:

- > pitching a business idea
- > carrying out market research
- > identifying their target audience
- > establishing their brand.

This gives them the tools to go away and start developing their business idea.

Six shortlisted teams are invited to the campus to pitch their idea to the Teesside Dragon's Den on **Wednesday 25 June** and prizes of £500 and £250 are up for grabs.

### Viral marketing challenge

 **Launching October 2024**

Do your students see themselves as the next viral big influencer? Working to a brief set by Teesside University's marketing team, they develop new ideas to promote Teesside University International Business School, thinking about print and digital assets.

They will be supported with online webinars and a first prize of £500 and two runner-up prizes of £250 are up for grabs.

Register your colleges interest in our **enterprise and viral marketing challenges** and we'll send you a support pack with all the information your students need.

# COMPUTING & IT

## SUBJECT EVENTS

### AI and machine learning hackathon

- 📅 **Wednesdays, 9.30am - 3.30pm**
- > 9 October 2024
  - > 6 November 2024
  - > 11 December 2024
  - > 22 January 2025
  - > 19 March 2025

Students get an overview of the fundamentals and key concepts in AI and machine learning. Working alongside academic staff they select a dataset, and in groups discuss methodologies and expected outputs. They analyse and preprocess their dataset, perform exploratory data analysis and implement and fine tune their machine learning models.

There are awards for the best project, most creative solution and best presentation.

### Crime day

- 📅 **Wednesdays, 9.30am - 3.30pm**
- > 23 October 2024
  - > 13 November 2024
  - > 4 December 2024
  - > 19 February 2025
  - > 25 June 2025

A truly interactive day where students watch a pre-recorded crime taking place, and then spend time in our labs and replica courtroom to understand the different approaches taken by crime scene and forensic scientists, crime scene investigators, cybersecurity specialists, criminologists and legal professionals, in solving modern crimes.

**BOOK YOUR SUBJECT EVENTS**

### > Discover aerospace and mechanical engineering

Students investigate the properties of a range of materials used in the manufacture of high-speed vehicles. They also have the opportunity to experience our flight simulator.

### > Discover chemical and process engineering

We explore the design and operation of different chemical unit operations, from simple heat exchangers to complex distillation columns. Students also get the opportunity to experience our very own distillation column.

### > Discover civil engineering and construction management

Using interactive software, we explore the design and construction of a simple bridge and carry out experiments to investigate stresses and bending across the beams.

### > Discover energy engineering

How does renewable energy like solar and wind generate enough electricity for us? Students look at engineering through a sustainability lens, and work in groups to design, make and use renewable energy devices.

### > Discover electrical, electronic, instrumentation and control engineering

Students experiment with electricity generation using solar PV systems. They learn how to measure current and voltage and then calculate power output. We investigate the impact of daily and seasonal changes in radiation on energy output.

**Alternatively, if you would like to bring a group of students for targeted curriculum support at a date and time to suit you, scan the bespoke QR code below.**

BOOK YOUR BESPOKE EVENTS

# ENGLISH, HISTORY, & POLITICS

## SUBJECT EVENTS

### ROUND-TABLE MASTERCLASSES

Students work directly with academic staff on themes and topics from the A level syllabus. The discussions focus on sources, debate, building skills and confidence and supporting student attainment.

#### English

📅 **Wednesday 6 November 2024**  
**Wednesday 5 March 2025**  
**4.00pm - 6.00pm**

#### Topics available include:

- > Analysing poetry and prose
- > Developing your authorial voice
- > Exam revision - women in dystopian fiction
- > Exam revision - Dracula in literature.

#### History and politics

📅 **Wednesday 20 November 2024**  
**Wednesday 26 March 2025**  
**4.00pm - 6.00pm**

#### Topics available include:

- > British political parties
- > reformation England
- > the French Revolution
- > Russia in the 20<sup>th</sup> Century
- > the rise of the Nazi's and Hitler's Germany
- > the USA - 1972 to present day
- > women and gender in politics.

**BOOK YOUR SUBJECT EVENTS**

## ACADEMIC SKILLS WORKSHOPS

🕒 Approx. 1 hour

📅 A date and time to suit you

📍 Face-to-face

📱 To book scan the bespoke QR code

Working alongside our academic librarians, students are introduced to the types of academic skills needed for higher education.

You can include a session as part of a subject event or create your own programme picking sessions from the following:

- > book discovery
- > critical thinking
- > Harvard referencing
- > presentation skills
- > reflective learning
- > time management.

## ENGLISH, HISTORY AND POLITICS EXPERIENCE DAYS

📅 **October - December.**  
**Complete the bespoke request form and we'll be in touch when dates are confirmed.**

Our experience days offer the opportunity for students to:

- > attend a lecture from the following offer:
  - becoming a historian: sources, skills and contested histories (**history**)
  - Britain and Europe from 1870 to the present (**history and politics**)
  - empire: from ancient world to the Americas (**history**)
  - literature now: writing and audience (**English**)
  - political ideologies (**politics**)
- > chat with current students
- > speak with academic staff to find out more about the course, how to prepare and what to expect
- > take a tour of the campus.

**BOOK YOUR BESPOKE EVENTS**

## SPEAKERS INTO SCHOOLS (ENRICHMENT AND CAREER TALKS)

🕒 Approx. 1 hour

📅 A date and time to suit you

📍 Face-to-face or online

We know it's not always possible to bring your students out of the classroom to experience higher education, so we can bring the higher education experience to you.

**CHECK OUT WHAT TALKS ARE AVAILABLE AND BOOK**

# HEALTH & SOCIAL CARE

## SUBJECT EVENTS

### Health Access event

 **Wednesday 25 September 2024**  
9.30am - 3.00pm

Students get a flavour of our health courses, how they are studied, placement information and the types of careers they can lead to. We give hints and tips on personal statements and preparing for interview.

### Discover chiropractic, occupational therapy, sports therapy and physiotherapy

 **Wednesday 9 October 2024**  
10.15am - 2.30pm

Students are introduced to emerging rehabilitation technology being implemented into occupational therapy. They explore the role of a sports therapist in the screening and prevention of injuries, test their anatomical knowledge through the bone identification challenge and practice palpating the spine.

### Discover nursing and midwifery

 **Wednesday 9 October 2024**  
10.15am - 2.30pm

Students take part in skills sessions to understand the similarities and differences between adult, child, learning disabilities and mental health nursing. They understand how midwives support new families and the challenges the role brings.

### Health professions day

 **Saturday 30 November 2024**  
**Wednesday 25 June 2025**  
9.30am - 3.00pm

Students experience an emergency scenario and, through practical sessions, immerse themselves in simulated workshops, getting an interactive flavour of the multidisciplinary approach to healthcare.

### Discover emergency and diagnostic care

 **Wednesday 11 December 2024**  
10.15am - 2.30pm

Using specialist equipment students discover how x-rays are used for imaging patients in a trauma based scenario. They understand how operating department practitioners work in a perioperative environment and practice their CPR skills in our replica ambulance.

**BOOK YOUR SUBJECT EVENTS**

### Nursing and midwifery conference

 **Wednesday 7 May 2025**  
9.30am - 3.30pm

Celebrate international nurses day with us.

What does a career in nursing or midwifery look like? Students hear from key speakers from a range of clinical practices to gain an insight into their roles, and how they care for their patients. Sessions could include topics such as maternity delivery, cardiac arrest and dementia.

**If you would like to bring a group of students for targeted curriculum support at a date and time to suit you, scan the bespoke QR code and get in touch.**

**BOOK YOUR BESPOKE EVENTS**

**'Health professions was an absolutely fantastic event. Staff really helped to visualise each subject and give you an insight into the role. The acting was also amazing. Well done.'**

## PERSONAL STATEMENT AND INTERVIEW SUPPORT WORKSHOP

---

 Approx. 1 hour

---

 A date and time to suit you

---

 Face-to-face or online

---

Personal statements and interviews are an opportunity for students to sell themselves, to show their qualities, skills and expertise. During this interactive workshop academic staff share examples and ideas, enabling students to understand what is required as part of the application and interview process. Use the QR code below to book your talk.

# LAW & POLICING

## SUBJECT EVENTS

### Crime day

-  **Wednesdays, 9.30am - 3.30pm**
- > 23 October 2024
  - > 13 November 2024
  - > 4 December 2024
  - > 19 February 2025
  - > 25 June 2025

A truly interactive day where students watch a pre-recorded crime taking place, and then spend time in our labs and replica courtroom to understand the different approaches taken by crime scene and forensic scientists, crime scene investigators, cybersecurity specialists, criminologists and legal professionals, in solving modern crimes.

### Why fairness matters - ensuring justice in law and policing

-  **Wednesday 18 June 2025**  
**9.30am - 2.30pm**

Through practical and engaging sessions students explore topics linked to the curriculum. They debate and discuss many areas of the law and the legal system in the UK and understand the types of topics they might study at university including:

- > a fair cop in custody
- > equality of arms: the crucial role of cross-examination
- > fairness in fingerprints – mistakes and miscarriages
- > just and effective bail applications
- > unfair trials and unfit defendants.

**BOOK YOUR SUBJECT EVENTS**

**'I attended the right to a fair trial session as part of the fairness and justice in law event. It gave me such an insight into criminal law that I've decided this is a career I want to pursue.'**

## DISCOVER EVENTS

-  Approx. 2 1/2 hours

-  A date and time to suit you

-  Teesside University

Our discover events give students an insight into how a subject is taught at higher education. Using facilities such as our replica court room, law clinic or police station we can provide targeted curriculum support in a range of areas.

### Discover law

#### Topics may include:

- > age of responsibility – should child defendants be held criminally reliable?
- > interviewing skills for legal practice
- > mental illness and criminal law – how does criminal law deal with offenders who are mentally ill?

### Discover policing

#### Topics may include:

- > evidence-based policing – how and why does it work?
- > perception and investigation – can witness evidence be relied upon?
- > stop and search – police powers and PACE.

**If you would like to bring a group of students for targeted curriculum support at a date and time to suit you, scan the bespoke QR code below.**

# MEDIA, JOURNALISM & MUSIC

## SUBJECT EVENTS

### Script to screen

- 📅 Wednesdays, 10.00am - 3.30pm
- > 9 October 2024
  - > 13 November 2024
  - > 11 December 2024
  - > 12 February 2025
  - > 26 March 2025

Students learn about narrative, structure, character, genre and how to develop a good script. They plan, shoot and edit their short scripts using our TV and media facilities. An exciting event for students interested in script writing, and film and media production.

### Journalist for a day

- 📅 Wednesdays, 10.00am - 3.30pm
- > 9 October 2024
  - > 13 November 2024
  - > 11 December 2024
  - > 12 February 2025
  - > 26 March 2025

Students experience the excitement of live news production. They see how hot news stories, television or multimedia are produced and published to a deadline in a professional environment.

### Create your own film soundtrack

- 📅 Wednesday 23 October 2024  
1.00pm - 3.00pm

What goes into producing the sound you hear in films? We explore the role of sound design and audio in film and examine how mood and emotion can be manipulated through what we hear.

BOOK YOUR SUBJECT EVENTS

**'Script to screen gave me creative freedom working to a brief.'**

# SCIENCE

## SUBJECT EVENTS

### Biology conference

 **Wednesday 9 October 2024**  
9.30am - 3.30pm

Students discover how biologists are responding to the big global challenges of disease and environmental change, hear from top research scientists, and get hands-on exploring the impact biology has on the modern world.

### Crime day

 **Wednesdays, from 9.30am - 3.30pm**  
> 23 October 2024  
> 13 November 2024  
> 4 December 2024  
> 19 February 2025  
> 25 June 2025

A truly interactive day where students watch a pre-recorded crime taking place, and then spend time in our labs and replica courtroom to understand the different approaches taken by crime scene and forensic scientists, crime scene investigators, cybersecurity specialists, criminologists and legal professionals, in solving modern crimes.

### Climate change conference

 **Wednesday 20 November 2024**  
9.30am - 3.30pm

Students review the evidence for climate change and survey the real impact felt in the UK and around the world.

### Discover science

 **Wednesday 4 December 2024**  
**Wednesday 5 March 2025**  
10.15am - 2.30pm

Our science discovery days give students the opportunity to attend two subject sessions from the following:

- > biology
- > biomedical science
- > environmental science
- > food and nutrition
- > geography
- > pharmaceutical science.

Sessions are curriculum linked and could include:

- > antibiotic resistance and the Kirby-Bauer test
- > environmental distribution
- > nuclear magnetic resonance
- > trace metal solutions.

**‘Very good to see a physical demonstration of a hydrogen fuel cell at the climate change conference.’**

### Life, death and forensic science conference

 **Wednesday 26 March 2025**  
9.30am - 3.30pm

What can we discover from a skeleton? How does forensic genetics help us solve wildlife crime? What does blood spatter tell us about a crime scene?

Through practical sessions, students understand how advances in technology are helping those working in the legal and justice system catch the criminals.

# SPORT, EXERCISE & REHABILITATION

## SUBJECT EVENTS

Discover chiropractic, occupational therapy, sports therapy and physiotherapy

 **Wednesday 9 October 2024**  
9.30am - 3.30pm

Students are introduced to emerging rehabilitation technology being implemented into occupational therapy. They explore the role of a sports therapist in the screening and prevention of injuries, test their anatomical knowledge through the bone identification challenge and practice palpating the spine.

Sport, therapy and rehabilitation experience day

 **Friday 6 December 2024**  
9.30am - 3.30pm

Led by academic experts, students take part in practical, hands-on workshops to understand what a career in sport has to offer. Workshops give students the chance to:

- > explore the management of common injuries in sport, injury prevention and return to play
- > examine the role of psychology in sport and how this can provide an athlete with the strength to perform and succeed
- > investigate how our body responds to exercise in different environments using our environmental chamber
- > take part in assessments of force-related physical qualities using force plates and transducers to bring Newton's Law to life.

**BOOK YOUR SUBJECT EVENTS**

**If you would like to bring a group of students for targeted curriculum support, we can create a day covering the science of sports performance, injury prevention and rehabilitation and/or exercise and health.**

**Topics may cover:**

- > biomechanics: bringing Newton's Laws to life force plates
- > fitness testing and injury screening
- > physiological assessment of athletes/clients (aerobic/ anaerobic energy systems)
- > sports injury management, screening or prevention
- > taping and strapping
- > the role of hydrotherapy in rehabilitation.

# TEESSIDE UNIVERSITY FOOTBALL ACADEMY

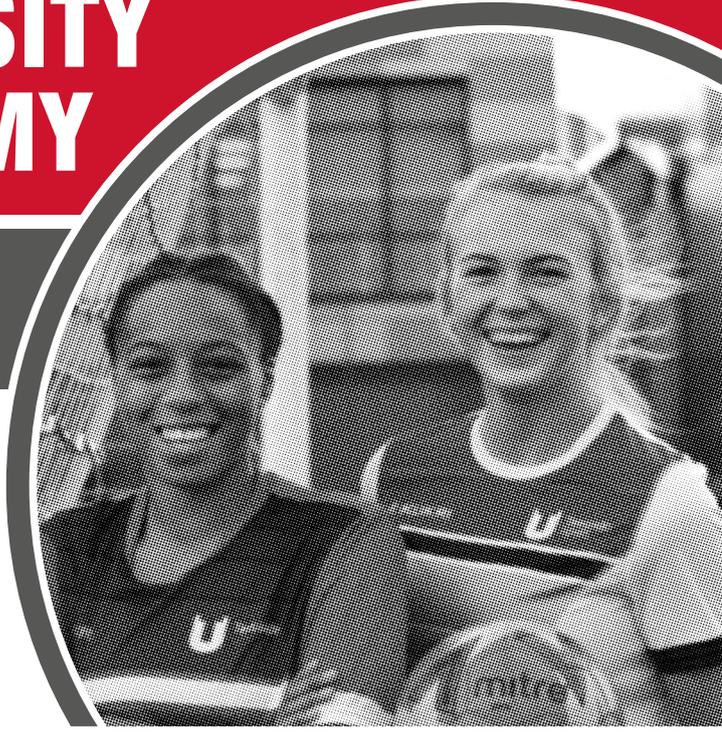

Get professional football training alongside your degree

**Teesside Sport offers support for talented athletes through our Football Academy. The programme develops students holistically as a football player while they study for an academic qualification.**

Students have access to:

- > 10 hours a week of bespoke football-related activity such as coaching, conditioning, analysis, recovery and medical support
- > gym membership
- > our sports hall, and 3G pitch and other Teesside Sport facilities
- > our hydrotherapy pool
- > up to £150 Teesside Sport kit.

We're committed to developing football excellence with high-performing players – both men and women. We provide an outstanding environment that raises aspirations and enables students to succeed through a dual career pathway, whatever their preferred academic discipline.

**If students are applying to Teesside University Football Academy, you could also be eligible for the George Friend Scholarship or the Beth Mead Scholarship.**
